SPIDERS WIN.

Come Out from Under a Blue Cloud in the Ninth.

WASHINGTON, D. C., April 30.—(Spe-lal.)—The Richmond College ball team was again victorious to alay, defeating the Catholic University team by a score of 4 to 8. The game this afternoon was even more hotly contested and exciting than was the one yesterday with the Columbians. Up to the ninth inning it looked blue for the Spiders, the score standing to 2 in favor of the University. Three times the Spiders had advanced men as fer as third, but on close decisions by Impire Daly they were called out. The Spiders, however, did great work in the highth and won the game. At that critical nuncture Cunningham flew out to right, Rea was presented with a ball in the back, and reached second on errors, and Ellyson struck out. Then White Clarice a safe drive into right field, bringing Rea home, and thereby theing the score. Wills then came to the bat, and sent the ball safe into left, advancing White to second. Hirsh then "cinched" the game by a beautiful drive into deep centre. PLAN ADOPTED FOR PAVING HULL

AGREEMENT WITH CAR COMPANY. There Will, Therefore, Be No Sult-Girder Rails to Be Anid on Hull

Street-German Last Night-Other

Items from the South Side.

The vexed question of the paving of Hull street, Manchester, was finally settled last night. After months of wrangling, the matter was quickly and quietly disposed of by the special committee and the Council, with little discussion or opposition. For fifteen blocks the Richmond Railway and Electric Company will relay their track, and for a distance of eight blocks girder rails will be used. There will be a new issue of bonds to suit doesn't fit, we do as the tailor | meet the expense incurred by the city, the plans for which have already been drawn up by the Finance Committee, and will be submitted to the Council at

their next meeting.

The special committee met in the Council chamber at 7 o'clock. The original proposition was taken up and discussed at some length. Mr. Sims offered the following amendment; "The railroad and Electric Company will carry out the terms of the agreement of April 10, 1897, and the terms of the qualifica-tion added by the Board of Trade on April 28th, with these further qualifications-to wit: That the company will lay double track girder rail from Seventh to Fifteenth streets, or on any other eight squares on Hull street, between Second and Fifteenth streets, as the Council may determine, and the further qualification that the remainder of the track shall be put in with Stringer rails, acceptable to the City Engineer, but not new. The balance of the agree-ment to stand as written."

The amendment was adopted by a vote

of 4 to 1, Mr. Campbell alone voting no. THE COUNCIL, RATIFIES.

The Council met immediately after the adjournment of the committee. Every member was present. Mr. Owens explained the action of the committee, and, by request, the agreement of April 19th, the qualification of the Board of Trade, and the minutes of the meeting of the committee were read.

Mr. Green, in a vigorous speech, opposed the laying of the girder rail between Seventh and Fifteenth streets, as suggested, urging that the travel was heavier between Second and Seventh streets in one week than between the other blocks in four. He said he believed the Stringer rail should be laid where there was most traffic.

Mr. Sims earnestly hoped there would be no further quibbling over the matter. For months, he said, the question had been squabbled over, and all were heartily tired of it. He hoped the Council would endorse the action of the committee.

Mr. Green asked if the committee were willing to have the rail put where the Street Committee wanted it. He said he wanted the responsibility placed on that committee, as they had had so much to say upon the subject.

The suggestion was accepted by the committee, and a motion was made by Mr. Morton to that effect. Personal explanations were made by Messrs. Campbell, Green, Utz, and Owens. The motion was then put, and carried by the following vote:

Ayes—Messrs. Green, Sims, Randlitt, Morton, Hart, Nelson, O'Brien, Utz, and Owens.

Noes—Campbell, Pool, Politani—2.

The accused are all tramps, who have been in camp back of the Exposition-Grounds, and on Wednesday night Henry visited the camp. Mitchell, it is alleged, held him up, and stole his cap and 20 cents. Thursday Henry saw Mitchell back of the Base-Ball Park, and claimed his cap, which adorned Mitchell's head. The quartette of tramps then sprang upon Henry, and a fierce fight, in which several of the participants were quite badly injured, ensued. The tramps were arrested by Constable A. Cs Green and A. L. Redford, and Squire Lewis iailed the four for thirty days, in default of \$100 surety, giving Mitchell an extra-sixty days.
